PERMISSION REQUEST INFORMATION

NOTE TO AUTHORS: In order to ensure that proper credit is given to authors and publishers of copyrighted material, the following procedures must be followed:

If your paper includes previously published materials (text, figures, tables, or diagrams):

- (a) Send a copy of the attached Permission Request Form to both the **Publisher** and **Author** to obtain permission to use that material in this publication. You must also follow the procedure for your own previously published work.
- (b) Be sure to give proper credit to the publication in your paper and note any specific requirements the publisher may have for wording, e.g., "Copyright by American Geophysical Union." A copy of the material used from the original publication should be sent along with the publisher's permission so that there is no question which permission applies to which of your figures.
- (c) Please send the form at the bottom of this page, appropriately completed, with your manuscript so that we will know you are in the process of obtaining necessary permission. It is **important** that you send a copy of each permission request (whether you use our form or your own letter/format) so that we have a record of permissions requested. In cases where societies give blanket permission for use of their material, include a copy of the statement that says this.

If your paper does not include previously published material:

Return the form below, appropriately marked, with your manuscript.

These procedures must be followed to avoid any delays that might result in the exclusion of your paper from this ADP publication. We will not print any article that contains copyrighted material without written permission from the copyright holder. This policy is to protect the Author(s), the Editor, and the Publisher.
